

General Anaesthesia for Adult Special Care Patients for the whole team

CDS Group of the BDA and the Association of Dental Anaesthetists have joined forces to provide a one day course on the provision of routine dental treatment under general anaesthesia for patients who have special needs.

We have a variety of speakers covering a number of topics and there will be something of interest for everyone. The objectives and learning outcomes for the day will be

1. Identify the impact of the Mental capacity Act and DOLs on patients care
2. Learn about the challenges of anaesthesia for patient with both common and rare syndromes
3. Gain knowledge of the role of the learning disability team in supporting the whole GA team
4. Understand the issues surrounding general anaesthesia for elderly patients
5. Explore the dilemmas in treatment planning
6. Managing anaesthesia for challenging patients

Please find enclosed a copy of the provisional programme, booking form and location map. Places are limited so please book early.
